Combat Eye Protection

Description and Specifications

The Ballistic Laser Protection System (BLPS) provides ballistic and laser eye protection and consists of multiple spectacle assemblies available in clear, sunglass, and two- and three-wavelength laser protection. The BLPS laser protection is provided by dye absorber technology. The BLPS accommodates a prescription lens insert via a nosepiece carrier for Soldiers who require corrective lenses. All lenses are ballistic protective. Five sets of eyewear protection have been issued in support of the Rapid Fielding Initiative (RFI) Combat Eye Protection Program (CEPP) to units being forward deployed. They are the Eye Safety Systems (ESS) Land Ops Goggles, ESS Profile NVG, UVEX Spectacle, and Oakley SI-M Frame (Ballistic) Spectacle. Authorized ballistic commercial eyewear are UVEX XC, Oakley SI-M Frame, Body Specs Pistol, Revision Military Eyewear, Wiley-X SG-1 and PT-1SC, ESS ICE 2 Goggles, ESS Land Ops, ESS Vehicle Ops, ESS Profile NVG, and Arena Flakjak, Sun, Wind, and Dust Goggles (SWDG) are the standard military goggle for eye protection and have a foam pad that seals the goggle frame to the face. A snap fastener facilitates easier lens replacement. The lenses provide ballistic and two- and three-wavelength protection.

ALL LENSES MUST BE CLEAR NO TINTED LENSES ALLOWED!
